

Instrument Decontamination Form

A&D Instruments Ltd require the following document to be completed prior to the return of any instrument for repair.

Please read carefully and enclose the signed form with the product.

I/We

[Name & Address]

.....

.....

.....

.....

declare that the instrument [Model Number]

[Serial Number]

has been processed through a decontamination process and is free of any substances likely to be hazardous to the health of any person coming into contact with the above detailed instrument. This includes, but is not limited to, chemical, biological and radiological contamination.

If you consider the contamination risk low, then detail the correct handling procedure/s below.
A&D Instruments Ltd will refuse the repair of any instrument that does not have a correctly completed decontamination form and to charge for any expense whatsoever, including any consequential losses arising in relation to the return, disposal or consequences of contaminated product/s being returned to our premises for repair.
